

We depend heavily on KLOVE radio (FM 91.3, 106.3, 92.1). KLOVE provides positive, uplifting, encouraging programing. We are never concerned about what our children might hear on KLOVE. We believe KLOVE's positive message is of incalculable value to our community. Most of radio programing now is pure trash. All that negative cannot help but provide a negative impetus to the community. I have observed the negative impact such programing has on speech (encourages foul language). And who can say whether or not it may also encourage negative behavior. But KLOVE is different. KLOVE is a good neighbor. KLOVE helps people through tough times and encourages people to strive for their best, not their worst. If KLOVE programing were allowed to be replaced by the kind of programing that is prevalent on radio today, it would be a grave disservice to our community. Needless to say, many in our community would be quite upset by such a development. PLEASE, do all you can to keep all of KLOVE's stations broadcasting to at least as many people as they do now. You cannot allow this source of inspiration and encouragement to millions to be silenced. Such a thing would hurt this country more than you realize.
